DETAILED ACTION

Applicant's election of species 1-3 (claims 1 to 4 and 8 to 43), filed 5/23/05, has been acknowledged.

This application contains claims 44 to 86 drawn to an invention non-elected without traverse.

Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.

The title of the invention is not descriptive. A new title is required that is clearly indicative of the invention to which the claims are directed.

The lengthy specification has not been checked to the extent necessary to determine the presence of all possible minor errors. Applicant's cooperation is requested in correcting any errors of which applicant may become aware in the specification.

Applicant's election did not elect one species of the invention. The previous restriction requirement has been withdrawn and a detailed further restriction requirement in apply below:

Election/Restrictions

This application contains claims directed to the following patentably distinct species of the claimed invention:

Species I, claim 3.

Species II, claim 4

Species III, claim 5

Species IV, claim 6

Species V, claim 8

Species VI, claim 9

Species VII, claim 10

Species VIII, claims 11 and 13

Species IX, claim 12

Species X, claim 16

Species XI, claim 17

Species XII, claims 18, 28, 29 and 42

Species XIII, claims 19-25

Species XIV, claims 26 and 27

Species XV, claims 30-32

Species XVI, claims 33 and 34

Species XVII, claims 35-39

Species XVIII, claims 40 and 41

Species XIX, claim 43

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, claim 1, 2, 7, 14 and 15 are generic.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims

Art Unit: 2826

readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Alexander O. Williams whose telephone number is (571) 272 1924. The examiner can normally be reached on M-F 6:30-7:00PM.
